

## W. T. HOMECOMING WILL BE HELD SATURDAY

### Farmers Approve Continuing Contracts

#### ONLY ONE IN COUNTY VOTES AGAINST PLAN

95% of Farmers Approve Continuing Corn-Hog Contract

#### VOTE IS HEAVY

#### National Poll Favors a Continuation Program Started

Randall county farmers almost unanimously approved a continuation of the corn-hog program in the election which ended Saturday night.

Among the signers of the corn-hog contracts in the past the vote was 199, yes; to 1 no.

The vote among the non-signers were 36, yes; 0, no.

It is estimated that 95 percent of the farmers in the county who were eligible to vote cast a ballot in this election.

Henry F. Miller, president of the County Corn-Hog Control Association, expressed great pleasure with the fine response to the call of the farmers to cast a ballot on this program.

Tabulation of the ballot in Washington indicates that farmers over the nation expressed approval of the continuation of the corn-hog program by a very large majority. Predictions were made a few days before the ballot by those opposed to the continuation of the program that the vote would be very close. Nevertheless when the farmers spoke, it was by a very large majority in favor of continuing the program.

A referendum was taken a few months ago on the continuation of the wheat program, the results were practically the same all over the nation, as was the result of Saturday's ballot.

#### Local Man Talks on Government at Chapel Period

Clyde W. Warwick was speaker at the assembly hour at the College Tuesday morning.

Mr. Warwick discussed current governmental needs and declared that he considered it unfortunate that teachers and preachers who are close to the people are forbidden by virtue of their offices to take part in the discussion of political questions.

Other points stressed in the address were that America needs trained men for public offices; that crime is the most serious problem before the American people today; and that citizens are not living up to their privileges when they fail to vote on important matters. In connection with this last point the speaker mentioned that only about 30 per cent of those who should have qualified to vote did so in the Texas election this year when important amendments were before the people.

#### WPA Offers Monday For Roads on Mail Routes, Bus Lines

Congressman Marvin Jones notified The News yesterday that \$25,000 had been set aside by PWA for Randall county for the improvement of roads over which mail was carried and are traveled by school busses.

No further information has been received regarding other WPA projects in Randall county. A. A. Meredith, district director, was here Tuesday going over the campus projects with Dr. J. A. Hill, and was hopeful that work orders would soon be issued on some of Randall County's projects.

J. L. Smith has been transferred from the Randall county highway office to Beaumont.

### P. O. Engineer and Architect Are Here

#### Hope to Start Building With Five Months—a Study being Made of the Location

With a construction engineer from Washington and the consulting architect from Austin both in Canyon, indications are that work will be started on the new postoffice building in Canyon at the earliest possible time.

C. C. Holloway, construction engineer from the treasury department at Washington, arrived Tuesday evening and has been making a complete investigation regarding the new building.

B. E. Giesecke, consulting architect for the procurement department of the treasury with headquarters at Austin, arrived yesterday morning to make investigations in regard to the construction details of the building.

According to Mr. Holloway it will take from three to five months to complete the plans for the building and get the contract let. The department has not indicated the size of the building that will be awarded Canyon, but Mr. Holloway states that some mighty good buildings are being constructed at about \$40,000, exclusive of equipment.

A study of the soil was made in order to determine the depth necessary for the foundation.

Mrs. Ruth Costley, owner of the lot, received notice Friday of the (Continued on last page)

### Palo Duro Only Place In State With Two Camps

#### Official Word Comes as to Continuation Work at Palo Duro During Next Period of Time.

More men are being received at the Palo Duro State Park to fill the two companies to full strength for the sixth period work. It is expected that both companies will be filled by the end of this week.

Official announcement was made from Washington Monday that the two companies would remain until next July. There are 85 camps in Texas and the Palo Duro was the only site in Texas at which two companies were placed.

Approval of \$36,000 for materials and supervision has been received for the coming period, stated Supt. L. J. Bryan. Work projects are being released as rapidly as possible.

Captain Adair will arrive today from the Hereford CCC camp to assume command of Company 2876. Captain Spurlock will continue with his work as subdistrict commander. He has been in charge of this company for the past two weeks.

It is expected that all work at the Hereford State Park will close today, although it is reported that a few men may be moved there in order to complete the work. As soon as the camp is closed, Howard Trigg will be transferred to the Palo Duro as junior superintendent.

A new architect is expected at the Park tomorrow, and will start work immediately in completing plans for the stone cabins near the lodge and to complete the entrance plans.

Archie Lipe of Anderson, Mo., is visiting at the parental J. E. Lipe home.

Ercel Dunn was called to Wichita, Kansas, Friday by the serious illness of his mother.

### Speaker For Saturday

GENERAL HUGH S. JOHNSON

### HUGH JOHNSON WILL SPEAK AT 10:30 SATURDAY

Massed Band Concert to Be Played By High Schools

#### EXES ARE COMING

#### Full Day of Entertainment Is Planned at W. T.

From early morning until midnight Saturday, Canyon will be full of visitors and everybody will be busy entertaining friends who have come to attend the annual Homecoming of the College and to hear General Hugh S. Johnson.

The earliest event of the day will be the Y. W. C. A. breakfast at the Blue Goose Cafe. The Y. W. C. A. has been a prominent organization of the College since 1910 and it is expected that some of the earliest students will be here to renew old acquaintances.

Next, ex-student Pi Omegas who have helped furnish pep for athletic events in years gone by will be honored with a coffee in the studio of Miss Pauline Brigham.

At 10:00 o'clock the high school bands of Hereford, Dalhart, Pampa, Happy, Panhandle, White Deer, Clarendon, Canyon, and perhaps other towns will give a massed band concert under the direction of C. E. Strain. A series of favorite marches including "Washington Post, National Emblem and Them Bases," will be played between 10:00 and 10:30.

At 10:30 General Hugh Johnson will speak. This will be an outdoor occasion if weather permits; otherwise, he will be heard in the auditorium of the Administration building. Amplifiers have been provided for the occasion.

General Johnson, who is appearing at only two places in the state of Texas, was secured by the lyceum committee of which Prof. Wallace R. Clark is chairman. He is considered one of the most stimulating speakers in the United States today. He was head of the NRA at the time of its organization and is at present relief administrator of the city of New York. Many critics have denounced General Johnson, but none has ever questioned his honesty. The Johnson lecture is open to students on their blanket tax tickets (Continued on last page)

### Dr. H. N. Wheeler Will Lecture at Palo Duro Nov. 14

Citizens of Canyon are urged to go to the recreation hall at the Palo Duro State Park on Thursday night, Nov. 14th at 7:30 o'clock to hear Dr. H. N. Wheeler, lecturer of the National Park Service, who will give an illustrated lecture on the work of his department.

Dr. Wheeler was here two years ago and proved to be very instructive and entertaining. He will talk at the Rotary club luncheon at Amarillo on noon.

D. E. Colp, chairman of the Texas State Parks Board, urges that all members of Federated Clubs, service clubs, local pastors and teachers attend the lecture of Dr. Wheeler.

#### Time Changed On Eagles-Hereford Game Here Oct. 11

The annual tilt between the Hereford High School's White Faces and the Canyon High Eagles will be played at 10 a. m. Monday, Nov. 11, instead of an afternoon game as formerly announced.

There has been rivalry between the two schools for many years, and this game promises to be one of the best of the season. Support the Eagles in this game and help them chalk up a win.

#### Ravens Bringing Strong Team for Homecoming Event on the Local Field

The biggest show in West Texas football will be offered in Canyon Saturday afternoon when the ram-paging Ravens of St. Benedict College fly into town to make the second party in the Buffaloes' homecoming game.

Spurred on by the drubbing they gave Ft. Hays State, the Ravens will be double tough. They have gained momentum since the start of the season, and will be in high-high against the Buffaloes this week end.

Larry Mullins, who did great guns as a ball carrier for the immortal Rockne and who has an All-American certificate will bring his coaching wizardry and a flock of ace backfield men that could play football for anyone.

He usually starts a backfield consisting of Danaher, Martin, Neff and Weiffenbach that is considered the best foursome in the middle west, and he has plenty of ambitious men that can finish anything started by the regulars.

In Red Cahill of swingin' fame, Joe Concannon, and Jim Dockery, the Raven mentor has a trio that is just about as good as his starters. They have been impressive (Continued on last page)

The tax problem has been a most vexing one for every state. We are not informed as to whether other state legislatures have meddled with the tax law so much as has been the case in Texas. If they have, there is no wonder that tax payers are not interested in paying their taxes on time. Penalties and interest charges have been remitted so often in this state that there is no incentive for the property owner to meet his tax bill on time. As a result, county and state treasuries are depleted. The legislature passed a good bill in discounts on taxes which were paid in October, November and December. Such discounts would do much to bring in the taxes, once the people were convinced that the legislature would not later remit the penalties on those who were delinquent. Unfortunately this bill was declared unconstitutional, and an amendment will likely be submitted at the next session making these discounts possible. It would greatly aid the tax situation in Texas.

General Hugh Johnson will speak here Saturday. He is one of the forceful characters in this nation. His words carry a punch. He will discuss both the Democratic and Republican parties and the leaders of both. The General was head of the late and lamented NRA, which started in a bias of circus grandstanding, and ended with the opposition of nearly all business interests. In attempting to do, NRA was unfortunate in its program of overdoing. The crafty General went out before the circus wagon was overturned by the Supreme Court. Every citizen should hear him Saturday when he speaks at the Homecoming exercises. He has been in the thick of the fight at Washington, and while his opinions are pretty much biased in favor of the importance of General Hugh Johnson, yet he brings information of the strength and weakness of the government; the good and the bad; both of the national administration, the Republican party, and the personalities in the public eye.

The Supreme Court will hear the arguments of the processing taxes of AAA on December 9th. It is significant that President Roosevelt on Friday announced a permanent program for agriculture, which indicates very clearly that he realizes the supreme importance of saving the farmers from destruction by a recurrence of low prices. The processing tax may not be ideal, but has done much to stay the depression and start the nation on the road to

## Ethiopians Defy Bombs, Tanks, to Repulse Foe

While representatives of world powers at Geneva strive to halt the Italo-Ethiopian conflict, war continues to rage fitfully on East African fronts, as actual war scenes, above, reveal. Undaunted by mid-get but formidable Italian tanks, shown at right below, Ethiopian tribesmen, as pictured above at right, dart nimbly over rugged terrain to attack the invaders from points of vantage. Anti-aircraft guns such as that pictured at bottom left aid Selassie's warriors in combatting terrorizing Italian bombing plane squadrons, one of which is led by Count Galeazzo Ciano, top left, son-in-law of Mussolini. Several times, according to reports, Ciano has returned from air raids with bullet marks in his plane.

recovery. Without the buying power of the farmer restored, the industrial east would still be in the throes of the depression; yet it is hard to convince the consumers of that section that they have not been made the goat of farm recovery through the increased commodity prices.

Who wants to pay the old age pension? Not I, say the sulphur interests. Not I, say the real estate owners. Not I, say the consumers. Not I, say the oil and gas interests. Not I, say the railroads. Not I, say the wage earners. Not I, say the capitalists. Not I, say the liquor interests. Not I, say the race track gamblers. The people of Texas cast a very heavy vote in favor of the old age pension without having an idea where the money was to come from. Now the legislature is wondering what it will do for money to pay the pension.

5,000,000 boys in the United States are subjected to the contagious disease of crime. 75% of the car thefts in this nation are due to child criminals. Those who are aware of this tragic condition in the United States are wondering whether or not the efforts of the nation to change the religious faith of peoples of other lands could not be better directed in attempting to save the youth of this nation. Most of the so-called heathen had a religion long before this nation was established.

Word to The News from Washington indicates that WPA is in its present jam very largely as the result of politics. Comptroller General McCarl is a Republican and a potential candidate for President next year. It is very easy for him to sew up appropriations, which he has been doing under WPA. Congressional pressure is being exerted to such an

extent against McCarl that he is being forced into action. Fortunately for the nation, his term of office expires next year.

The American government is the only one which has an independent Supreme Court, free from political party and political influence. The courts of Italy, Russia, Germany and many other European nations are tools of the dictators in power. In England, the parliament is supreme. There is no danger of upsetting the constitution of the United States so long as nine able and distinguished jurists are members of this court.

Mussolini celebrated his 13th anniversary in power. That is quite a long time for an absolute dictator to remain in power. Mussolini felt power slipping away from him so rapidly that he was forced to start the war with Ethiopia in order to save his face with the home folks.

There are 85 CCC camps in Texas. The only place in the state with two of these camps is the Palo Duro State Park. This

shows the citizens how much the National Park Service and the Texas State Parks Board believe in the opportunities of the Palo Duro Park. If you have not visited the Park recently, drive out and see the wonderful development which has taken place.

The legislature has refused to pass a sales tax to pay old age pensions, but is increasing taxes on telephones, lights, gas, oil, and a number of other commodities. These taxes will be passed on to the consumer, so after all we have a sales tax on a large part of our commodities. It's an easy method to kick the people.

The Texas Centennial has changed heads once more. It is hard to tell day by day who is in charge. In spite of the number of changes, the Centennial will be a great show next year.

The farmers gave AAA a most hearty endorsement in the vote Saturday. Regardless of what the critics have to say about AAA, the farmers know that it saved them from bankruptcy.

Teams Which Have Started Off "in High" May Learn, Later in the Season, That They Have Sacrificed Defense for a Strong Offense

BY PHILIP MARTIN

THE saying, "a strong offense is the best defense," will come in for a severe trial during the next few months.

Piling up huge scores in the first couple of warm-up games, a practice in vogue this season, is apt to skyrocket the gridiron stock of any given team and swell the game attendance figures enormously. But the psychological effect of such a system on the players may be detrimental. And not entirely because of overconfidence, the stumbling block of many a fine outfit.

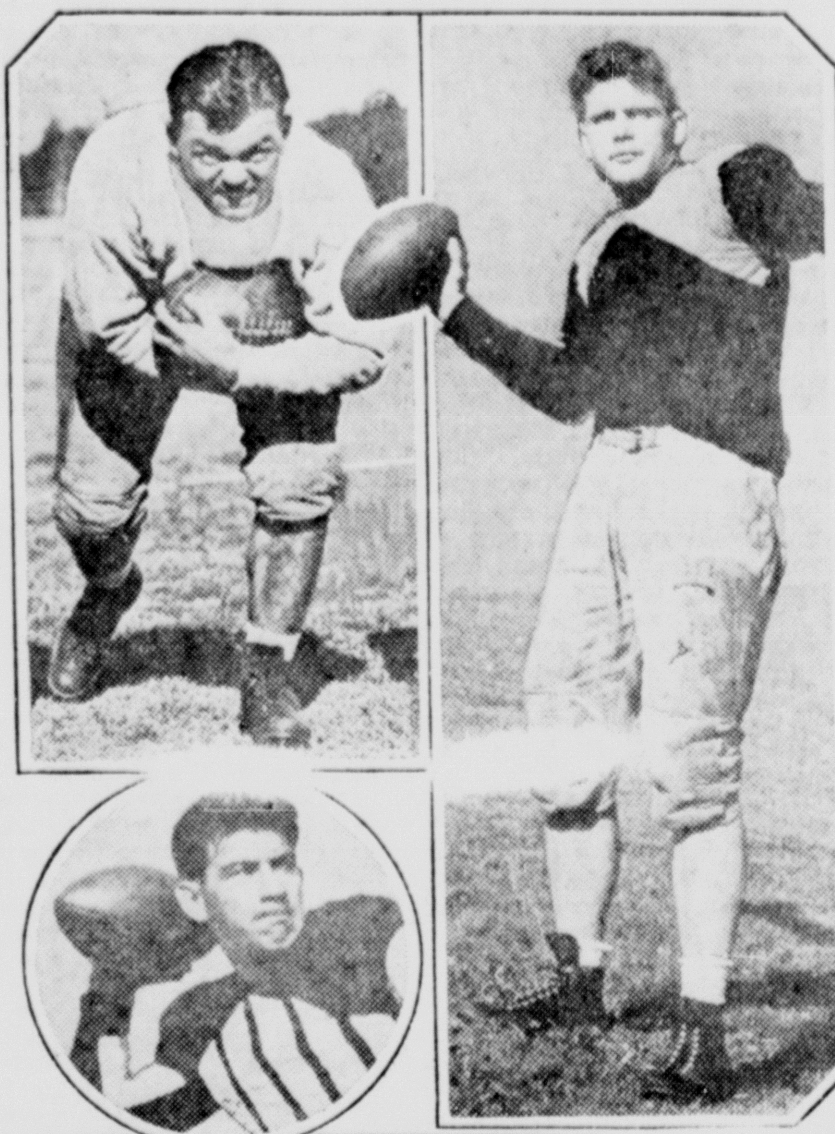

After participating in a really big offensive drive, the players may grow careless and overlook the very vital matter of perfecting an adequate defense.

The backfield, in its endeavor to "freeze" the ball and add to the carnage, is inclined to attempt to advance itself by the more rapid and sensational route of the pass, line smash or flank play rather than by the slower and safer means of long, well placed punts and properly timed quick kicks.

Thus, as the season wears on, and these players collide with teams of equal scoring power, which, however, are up to snuff on the all-important matter of self-defense, they discover to their chagrin that the despised punt and all the other smart little maneuvers for repulsing the enemy's drive are beyond their ken.

And, too, a team which earns itself a reputation of being an adding machine sets itself on a pedestal in the full glare of the limelight. It is, therefore, sure to be subjected to close scrutiny by scouts representing schools it is scheduled to meet two or three weeks hence. And crafty spotters are certain to ferret out defensive lapses, you may be sure.

ON the basis of performances to date, George Roscoe, Minnesota; Clarence "Ace" Parker, Duke; and Ted Key, U. C. L. A., seem certain to get All-America mention when the football cur-

tain is rung down.

Roscoe, filling the gap vacated by graduation of the stellar "Pug" Lund, almost single-handedly led the Norsemen to victory over a strong Nebraska outfit, in one of the early-season classics.

Stanford's Indians had rolled serenely along the victory path since 1933, until Fullback Key's

tally punctured their hopes for another perfect year.

And Parker—well, this quarterback is a team in himself. He can block, tackle, run, kick, receive and defend against passes with the best of 'em. Clarence is one of the most polished gridiron products turned out of a Dixie school in many a moon.

### Warmer Weather Is Rule of Week After Several Days Cold

The temperature stood at near freezing all last week, but has moderated very greatly this week. South winds prevailed with a springlike effect as to temperature and dust.

A norther was appearing this morning with the promise of colder weather.

Thursday afternoon and night a light rain fell in this section, amounting to .47 of an inch. Not all of the Plains section received this moisture, according to reports.

Some people never contract a momentary debt. Others know them too well.

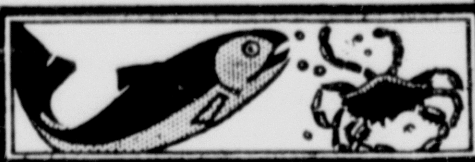

It's not so much the kind of a car you drive, as the way you drive it, that counts.

NUMBER 8

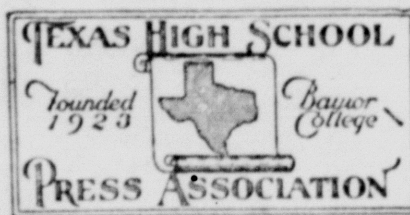

Cactus

Hey kids, did ye know that Miss Jewell Foster has to watch all the kids on the third floor except the ones in Mr. Fox's class from 8:30 to 9 o'clock. There's the library, study hall, typing, and business training under one teacher at the same time and in three different rooms. She teaches Spanish II, world history, and eighth grade English for the rest of the day; then stays up here after 3 o'clock to help the kids get their Spanish and English and History, and besides all that she gets all the wailin' and gripin' about the assembly programs.

Wal kids, I shore am glad you all are listening to that Ethiopia outfit on the radio, but I hope it don't make you wanta shine up yer dad's six shooters. Mr. Carruth says its a good idea to watch it, but don't jump into it, until you have to. And by the way, if Mr. Carruth asks you if you're a democrat or republican, you better say "Democrat," cause Jean Slack got her words mixed up the other day and called him President Roosevelt; so he wants to know if the kids is democratic backers or republican opposers.

Beulah Brasuel, one of them rowdy newspaper reporters, saw some women go into a room up there at the high school; so she run in and asked them if they was a P. T. A. committee, but they said, "No, we are the punkin pie committee." Gee, I hope they invite everybody.

Wal, how'd you like the carnival up at the school house last Monday night? Some of those booths sure did surprise me. Mirah and me took in every single side show and had our fortunes told to boot. Wal, I gotta stop and get ready to go Hallowe'en spookin', so, so long.

## ETHIOPIA?

Ethiopia—yes, Ethiopia is discussed among the students of Canyon High School, as well as the teachers.

You may even hear Ethiopia discussed, when you walk into the history classes or in the civics class. This shows that not only the Italian and Ethiopian boys and girls are thinking about the period of great international confusion, but that boys and girls of Canyon High School are also thinking in terms of the great political, social, and economic problems of the time.

The American History class was not at all surprised a few mornings ago by finding a question on Ethiopia to be answered on their six weeks history examination.

So many of the students are getting so interested in the happenings of Ethiopia that a notice was placed on the bulletin board, telling everyone to listen to the Ethiopian radio program over KONG every Monday, Wednesday, and Friday afternoon.

The situation with Ethiopia has become so complicated that as each new day rolls around something exciting and vital to the future takes place.

Let's each of us keep up with the latest happenings in Ethiopia whether it is in the history class, by newspaper, or radio.

Cowboys Win Over  
Canyon Eagles by  
One Penetration

Both teams playing a defensive battle, the Canyon Eagles and Happy Cowboys played to a deadlock at Happy last Friday afternoon. The Cowboys won by one penetration.

Most of the game was played in the middle of the field with only one penetration during the entire game.

Both teams were unsuccessful with their passes, and neither made any outstanding runs, they were both strong on the defense.

One thing that greatly weakened the Eagles team was the absence of Sewel Cox, Wandell Johnson, and Thomas Harris.

The Happy junior pep squad gave a stunt at the half.

PTA Study Group  
Decides to Study  
School Curriculum

The P. T. A. Study group met last Thursday to acquaint themselves with their study topic for the following year.

Mrs. D. A. Nicholas led the devotional. She read a story, and the group repeated the Lord's Prayer.

Mrs. H. A. Brown sang a song entitled, "I Love a Little Cottage." She was accompanied by Mrs. John B. Pope, Jr.

The committee to plan programs for the study club had met with Mr. Irby Carruth, superintendent of the high school, and Miss Elva Pronabarger, principal of the grade school, and decided to study Curriculum Revision.

## Carruth Discusses Revision

Superintendent I. B. Carruth gave an introduction to their study on "Curriculum Revision in Texas." Mr. Carruth said many people ask this question: "What is the big demand causing you to change curriculum?" He gave some of the reasons stated by Fred C. Ayer.

A new social world and age must be faced. The present curriculum is a little out of date. It grew up from the Boston-Latin school with subjects added and changed as they were needed.

The old system didn't teach from an attitude standpoint. It laid too much stress on specialized subjects.

## Population Causes Revision

Difference in population also causes a demand for a revision of curriculum. More pupils brought the problems of teaching each child from his level and background.

"We haven't kept up with Scientific development. A small school needs to have as good a course of study as a large one," said Mr. Carruth.

## Curriculum Defined

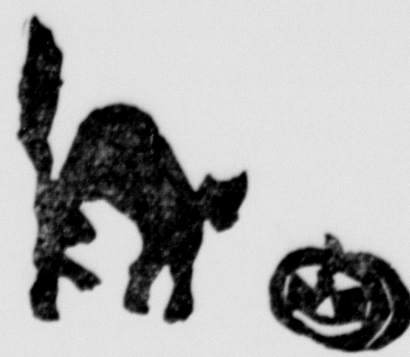

He said that there were several definitions for curriculum, but the one accepted today would include all the different activities given under instructions. Not only books, but different activities that mold a child's personality. In planning the activities the child would learn by living and doing. The child would also study a subject he was interested in and take subjects for in connection with that.

Mrs. Millard Word gave several questions for discussion.

## Decide Meetings of Club

The members of the study group decided not to have all their meetings with the general group, but continue as usual. They set their dates of meeting on the second and fourth Thursday of each month from 3 to 4 o'clock.

The group discussed dues and the Hallowe'en Carnival.

Hallowe'en has come, Hallowe'en is here. Witches, cats and pumpkins seem to be everywhere.

Yes, this is Hallowe'en. The day which all young people have been waiting so long.

After school the children are always seen hanging around the store windows which have Hallowe'en decorations in them, trying to figure out which mask they want to get to hide their facial appearance on this night of all nights, "Hallowe'en."

Some of the younger set seem to appreciate Hallowe'en as much as they would a holiday. In any class room or hallway one hears about a party which is being planned or some other Hallowe'en entertainments.

Jolly games are played; myths and legends are listened to with awe, and gay colors and festivals prevail. It is the one celebration without a lesson or moral.

The P. T. A. Hallowe'en Carnival was a big success, and the large turnout for this event is a splendid example of co-operation among the school and parents, and entire community.

The P. T. A. wishes to thank especially the American Legion, the Legion Auxiliary, the Rotary Club, Mr. and Mrs. Albert Terry and Albert Jr., the T-Anchor Cowboys, the Woman's Book Club, The Junior Woman's Book Club, Coy Palmer, Jim Kirby, Houston Bright, Mable Schmitz and her tap dancing class, Laura Fern Brian and Bob Orton, Rev. Stuart Marsh, Mrs. Tommie Montfort, and Mrs. W. H. Stroud, judges; Mr. T. M. Steen, and Mr. C. M. Kiker, janitors.

Joe Boy Hill, Jr.,  
Tells Experiences  
In Little America

After "Neeka" had barked a playful "hello," in the Canyon High School auditorium Thursday night, Joe Hill, Jr., familiarly known as "Joe Boy," took the audience back to Little America with him to show them through his 14 months of danger in the Antarctic region, while exploring two-fifths of the continent as large as North America.

The party left Boston and went to Australia by way of the Panama Canal. They had two ships, The Bear Oakland and the Jacob Ruppert, three airplanes, 45,000 tons of material, 140 dogs, three cows, and five tractors.

## Joe Boy Is Youngest

"Joe Boy" was the youngest member of the party, spending his twenty-first birthday in Little America. He was Admiral Byrd's personal aide and an active member of the tractor department. Joe often worked barehanded in weather 40 degrees below zero. The coldest weather in the entire Marie Byrd land reported at the advance base by Admiral Byrd was 82.5 degrees below zero, and the coldest in Little America was 72.6 degrees below zero.

Soon after the party completed burying their planes and killing 800 seals, the winter night set in. The Admiral was at advance base, while the rest of the party was in Little America. The party worked eight hours each day besides going to school. In school, they studied biology, radio, and other useful subjects. There was a 3,000-book library and 40 movie films were taken with the expedition.

Those attending were: Lavena Watkins, Anna Katherine Overton, Loretta Cole, Lucy Mae Furlow, Wilma Cofer, Dell Bagley, Evelyn Cluck, Marielle Oldham, Mavis Harden, Gerald Dean Heath, Ruby Guthrie, J. C. Bellah, Hal Gamble, Wesley Cox, Leslie Lisle, Jack Oldham, and Stewart Mable.

Festive Activities  
Attract Over 800  
To PTA Carnival

By Mary Collins

Mingled with the smell of hamburgers and the chatter of more than 800 people, as they hustled through the buildings last Monday night, was every kind of noise and excitement that goes with a Hallowe'en Carnival. Boys and girls' throats are still sore because of the "barking" they did at the carnival, and the judge's heads were weak from the task of deciding the winner of the stunts.

The P. T. A. made approximately \$110.00, while \$42.50 of this was from the booths alone. The Senior Class, sponsored by Miss Lois Goodrich, won the \$3.00 prize for making the most money from its booth. They took in \$9.00. Of course you could not possibly imagine Mr. W. H. Stroud in baby clothes, sucking an all-day sucker.

The Legion Auxiliary took the \$3.00 prize for stunts. How could they keep from it with Mr. Irby Carruth and Miss Elva Pronabarger impersonated on the stage? The Woman's Book Club came out second with their Texas Centennial program. Third place was given to the T-Anchor Cowboys. Mr. R. G. Stephenson's seventh grade won second place among the booths, and the Press Club, sponsored by Miss Goodrich, won third. Carolyn Mayfield was crowned Carnival Queen.

## Primary Grades Have Program

The P. T. A. Carnival was called to order, the first time in the high school auditorium at 7:30, where the first four grades of Canyon Grade School presented a program. The curtain was drawn, and dressed in purple and white band uniforms sat Mrs. T. W. Collins' and Miss Virginia Jarrett's first grades in a rhythm band led by Bobby Phillips with Ellen Sanders and Edith Jo Beckett announcing the numbers.

The Second Grade, dressed in Hallowe'en costumes with Spook Tunes, sponsored by Mrs. Ola Beeson.

## Hallowe'en Visits School

The spirits of Hallowe'en actually visited the school when the third grade presented "The Fate of the Witch," with Misses Ruth Greenfield and Gladys McClanahan in charge. Next came the Jack o' Lantern dance by twelve fourth-graders dressed as pumpkins, and a tap number done by Anita Davis, as a large pumpkin, in charge of Miss McClanahan and Mrs. Isabelle Cousins.

People then began rushing to the grade school building where various kinds of booths and side-shows decorated the building. In the gymnasium were found the majority of the booths.

## Seniors Win Booth Prize

First and foremost comes the prize winning booth of the night, the Senior's Baby Show.

Well, we'll never lose the memory of Dan Sanders in baby pink lying a cross a play table content with his sucker—too tired of a full day's play to roll his toy wagon which he clutched in his arms; nor of Mr. Stroud and J. L. Duflot as three year olds fighting over a gay rubber ball; and certainly not of George Archer and Mr. J. H. Lisle, in pink and white, respectively, sitting in tiny red chairs playing at a sand table, and don't ever think you can erase the memory of poor Mr. C. R. Flesher, the little girl baby, who wasn't allowed to play, and who pouted in the corner all evening.

One of the big attractions was the contests for the Carnival Queen, held under the sponsorship of the Press Club. The contestants were Laura Fern Brian, ex-student of '34, Carolyn Mayfield, and Martha Jo Newlin. Carolyn won by a large majority of votes.

The Pep Squad had a fortune telling booth, with Mrs. Ed Little presiding.

## Home Ec. Has Style Show

The Home Economics Club's Style Show aroused great curiosity. Ask Jimmie Pope and Joe Gill how they like the sleeping beauties, especially those dressed in baby clothes.

The sophomore's Animal Show caused a great deal of commotion.

The 5-A sold kisses a penny a piece; plenty cheap don't you think, because candy is going up. The 5-B entertained with a bare back rider.

6-A sold three balls for a nickel which were thrown at ten pins.

Fish turned out to be prominent when 6-B opened its Fishing Pond. The Kaffir Korn Band played in the grade school gymnasium while the midway attractions were in session.

In the 1-A room the High School Book Club held its Minstrel Show, which took you back way down south.

In 3-A room the P. T. A. sponsored a picture show given by Mr. S. B. Orton, showing the beauty spots of America.

The seventh grade had an Ath-

Student Council  
Representatives  
Elected Tuesday

October 22, all the classes of the high school had meetings to elect Student Council representatives and attend to other business.

The freshmen elected as Student Council representatives, Edrie McNeil and Carl Cone. The class discussed its booth for the carnival and decided upon a stunt entitled "Sleeping Babies."

At the class meeting of the Sophomores, Marie O'Donnell and Billy Black were elected as representatives to the Student Council. Plans for a party on Hallowe'en night were discussed. These were not definite however. Nearly half the class volunteered to help with the booth, "The Animal Show."

## Junior Class Meets

The juniors meeting for the purpose of choosing Student Council representatives, Kate Donnell and John B. Pope were elected. The class was invited to a Hallowe'en party at the home of the room mother, Mrs. Alfred Bellah. Jack Inman, Carolyn Mayfield, and Marielle Oldham were appointed to the stunt committee for the P. T. A. Carnival.

At the meeting of the seniors, Overton Donnell and Mary Ella Davis were elected representatives to the Student Council, and Mrs. Wilford Taylor, room mother. The class decided to have a chicken fry, but later it was postponed on account of the weather. Miss Lois Goodrich entertained the class at the home of J. M. Daugherty after the ball game Friday night.

SEWEL COX HAS  
OPERATION ON LEG

Sewel Cox, member of the senior class and half back on the Eagle football team, had his leg operated on Saturday morning after being taken to the hospital last Thursday.

Before the operation Wesley Cox, brother of Sewel, furnished the blood for a blood transfusion. Sewel will probably be in the hospital several days yet.

Letters have been sent to all ex-students of Canyon High School inviting them to attend Homecoming Day, Nov. 8.

The Homecoming program will start at 9 o'clock Friday morning and be climaxed by the ex-student banquet at 7:30 Friday night.

Next week's Eagle's Tale will be a special edition honoring all ex-students.

letic Show.

The American Legion sold hamburgers, while the P. T. A. sold pie and coffee.

Then back in the high school auditorium, six clubs of the town entertained with stunts.

The Legion Auxiliary gave the prize-winning stunt, a mock scene of a P. T. A. meeting. Grade school students represented outstanding members of the P. T. A. First, the minutes were read; then Miss Elva Pronabarger said a word, and Mrs. Irby Carruth told how she thought some pre-school children were so smart, and finally Clarence Eugene Thompson, acting as Mr. Carruth, said a word or two on the curriculum revision. Before adjourning the meeting Martha Frances Campbell, as Mrs. Lee Foster, entertained with a piano number.

The Woman's Book Club stunt, winner of second place was observing Texas Centennial. Charlotte Tupp, at the xylophone, and Hope wells at the piano, played a song to represent each country that has flown its flag over Texas, as the flags of these countries were placed on the stage.

The T-Anchor Cowboys won third place with four numbers.

The Rotary Club presented Albert E. Terry, Jr., on their program. He sang and played on his guitar, and tapped.

Mable Schmitz presented her tap dancers in a stunt. Carline Scott, Fannie Alice Pierce, Mary Dell Johnson, Martha Lee Foster, Shirley Harrell, Annie Ruth Schmitz, Mable Schmitz, Annie Lee Newlin, Anita Davis and Edith Neff, took part.

# BUFFS TROUNCE MUCKERS 14-0 IN GAME FRIDAY

## Dow and Van Noy Score Touchdown Each In First Quarter

Shoving over two touchdowns in the first quarter through straight line plays, spiked by fast end runs and laterals, the West Texas State Teachers College Buffaloes stopped a hard-hitting Mucker crew cold and romped away with a 14 to 0 victory Friday afternoon in El Paso.

Paced by Dow, Murry, Stewart, Van Noy, and Davis, the Buffaloes gave the Miners a merry chase. They ran their ends, skirted the tackles, and plunged at random against the best that the Muckers had to offer.

Convinced that his eleven could take the Prospectors any time after the first quarter, Coach Baggett started sending reserves into the battle.

Before it had ended he had used almost every man that made the trip to the Border Town. But tossing out the first quarter, when the Muckers wilted before the power charges of a snorting Buffalo backfield, the game was a thriller.

The Buffaloes took the opening kickoff and lashed off two first downs from their own 20. The Miners braced and held, and Champion kicked to Fondren on his own 14. Two line plays failed, and Page got off a weak punt that was killed on their own 35 yard line. Van Noy skirted right end for 12 yards and Clark rounded his own left end for 8. Dow plunged to the 10, and Van Noy scooted around his own right end for the touchdown. Dow converted from placement.

The Orediggers received the kickoff which went into the end zone. The Buffalo line was stubborn, and Page kicked to the Buffalo 45 yard line where Ronald Davis returned to the 50. The Buffaloes immediately launched another touchdown drive that netted a marker. Dow, Clark, R. Davis and Van Noy did alternation

duty, and Dow hit the middle of the line hard for the touchdown. He kicked the point.

The Miners came back strong with Fondren and Finley taking cracks at the Buffalo forward wall. But the Maroon and White line smeared the ambitious backs until they were finally forced to take to the air.

Their aerial attack was the best weapon of offense that they showed all afternoon, and it was nothing to write home about. Fondren and Finley, who were the only backs in the Mucker backfield that showed, began firing passes to Andrews and Adkins and completed several of their heaves, but as the game wore on they began throwing them wild and the alert Buffaloes made numerous interceptions.

The final minutes of the struggle saw the Muckers filling the air with passes that carried the ball for 3 first downs, but Leo Jackson intercepted Fondren's pass to Andrews to stop the Miners last hope.

## Disciples Hear Townsend Victory Cry

At the first national convention of the Townsend clubs held in the ballroom of a Chicago hotel, thousands of disciples, as shown above, heard Dr. Francis E. Townsend, left, proclaim that victory was near for his Old Age Revolving Pensions plan, which provides for \$200-a-month pensions to persons of 60 and beyond. Bluntly advising "rebels" to quit the organization, the 68-year-old Long Beach, Calif., physician predicted that in six months' time "we shall have 80 per cent of the voting strength of the nation demanding enactment of the Townsend plan."

## Sheffy Discussed Ethiopia Tuesday at Rotary Lunch

L. F. Sheffy made an interesting talk Tuesday at the Rotary Club luncheon, discussing Ethiopia, its people and their habits. The country is largely a plateau, with many mountains and beautiful valleys. It is about one-third larger than Texas, with 12 to 15 million people. With no sea port, it has been cut off for centuries. The custom of the people date back to King Solomon, from whom the Emperor claims to have descended. It is the only independent country in Africa.

The people are warlike, of great endurance. They have been invaded a number of times, and have repelled the invaders. They are proud, semi-barbaric. While backward in development, the nation is self-sustaining. They are loyal to their family, to their chieftains, to their Emperor. They have no money, but rely on barter, with salt a common medium of exchange.

The laws are Mosaic. The hands and feet of criminals are cut off. In civil disputes, the two litigants pick up a third person for judge and argue long and loud on the street. The judge may impose any sort of judgment, often chaining the two together until they agreed to a settlement.

The 7th anniversary of the local club was observed. The first president, Joe Hill, made a short statement of the benefits of the club. President Irby Carruth read the names of the 19 charter members and presented a rose to each. John Schramm was given a vote of thanks for furnishing venison for the luncheon.

Ray Campbell and Marshall Rockwell were introduced as new members by Harris Cook, who explained the meaning of the club. Visitors present were: N. S. Griggs, A. A. Merdith, H. M. Russell, Cal Farley, J. P. Brown, W.

W. Cunningham, Otto Thompson, Phil Pardon, Bill Riddle, all of Amarillo; Dr. A. E. Baggett of Hot Springs; R. N. Barnett, Burney Slack, L. P. Sheffy, M. E. Cleavenger, J. L. Cole, Lee Foster, W. D. Pike, T. C. Thompson, all of Canyon.

## Bufs Have

(Continued from page one)  
previse in previous games as the regulars, and will see plenty of action against the Buffaloes.

Woodrow Dunaway of Amarillo is another powerful runner that is "tops" on the St. Benedict roster. He is one of the gamest fighters on the squad, and will likely be one of the starting eleven Saturday.

The outstanding men in the Raven forward wall are Deutsch at end, Captain Joe Merris at guard, and Smiling Joe Casey at center. They are tried and proven linemen, having gained nation-wide recognition for their consistent play.

The Buffaloes, realizing that their big chance is coming Saturday, are working day and night to send the Blackbirds fluttering back home with a defeat tacked on their wings.

Thoroughly convinced that the only way his team can win will be by superior blocking, Coach Al Baggett put his hopefuls through a long dummy workout Monday.

The Bufs blocking against the Miners was par-excellent at times, and the West Texas officials believe that with consistent blocking such as was demonstrated in El Paso at intervals their team can give the dope bucket another tumble by stopping the Ravens in their hurried touchdown march.

## 19 Third Grade Children Study Santa Fe Plant

Nineteen children of the third grade of the Demonstration School went to Amarillo Tuesday afternoon and learned things about a transportation system which many grownups do not know. The children were the guests of the Santa Fe railroad. Richard Roberts, chief clerk, came to Canyon and went back on the train with the youngsters, many of whom were having their first ride by rail.

The trip had been arranged by Mrs. Laura Saunders, and Rebecca McCanne, Mrs. Lois Barnes, Jewell Morris, Mozelle Wolfe, and Frances Whitworth, practice teachers, and Miss Darthula Walker of the geography department also made the trip.

For two weeks the children had been learning to make change, and each child bought and paid for his own ticket. On the way to Amarillo Mr. Roberts conducted the entire party through the train.

On their arrival in Amarillo they inspected an air conditioned pullman car, watched a porter make up upper and lower berths; learned how to turn on the lights in the berth, and saw how the porter received signals from the berths and saw the dressing rooms.

The party next had lunch at the Harvey house where they also inspected the kitchen, cold storage rooms, dining rooms, and other storage rooms.

This was followed by a visit to the Santa Fe building where the children saw offices, recreation rooms, rooms where advertising materials are prepared, the Western Union rooms and were finally given a chance to look over the city of Amarillo from the high building. Here they also visited the basement two floors below the ground where they saw a water softener, the heating system and the safety deposit boxes used by each department.

The Round House was next visited and here the children saw several types of engines, the motor cars on which section men ride and the motor car which rail officials use to travel from town to town. The entire party rode on the turn table. Each child was given an opportunity to climb into the cab of one of the large engines and blow the whistle and ring the bell.

The children returned on the Missionary, a through train which goes to California. R. W. Prentice, train master for the Plains Division of the Santa Fe, accompanied them back to Canyon. Motor transportation in Amarillo was furnished by Carl Clift, superintendent of Potter county schools, Bill Beechler of the Amarillo Chamber of Commerce and others.

Children who made the trip were: Irving SoRelle, Harold Tid- enberg, Beatrice Clark, Lynn Paul, Max Dutton, Edsell Lowe, Travis Montgomery, Robert Finley, Betty Jo Baber, James Lair, Wynona Smith, Mary E. Hodge, Velma Cappel, Harold Loyd Brooks, Helen Rough, Jill Cooper, Frankie Phillips, O'Don Service, and Thorwald Jensen.

and to outsiders at 75c each.

Immediately following the lecture of the day there will be a great barbecue with John Snider of Amarillo supervising the preparation of the beef, buns, beans, coffee, and other things which will make up the meal. Prof. T. M. Moore of the agricultural department is in charge of the serving lines with Coach Al Baggett's freshmen and boys of the T-Anchor ranch assisting. The barbecue will be 35c to the general public and 25c to owners of the blanket tax. At least four lines will be run and service will be prompt and efficient. In case of bad weather, the barbecue can be served in the men's gymnasium.

In the afternoon the West Texas Buffaloes will test their strength against that of the St. Benedict Ravens of Atchison, Kansas. It is expected that this will be the best game of the season. Tickets to the game will be \$1.00 and 50c to the general public. It will be open to students on their blanket tax tickets, and ex-students who are members of the Ex-student Association will be admitted for 50 cents.

The last event of the long day will be an ex-student dance. Proceeds of this affair will be used by the Pi Omegas and Epsilon Betas to defray expenses of the coronation ceremony which is an annual affair sponsored by the college annual.

Prof. L. F. Sheffy, who was in general charge of the Twenty-fifth Anniversary program in 1934, has headed the Homecoming committee this year. Nearly every member of the faculty and many townspeople have given assistance that will make the day one to be remembered by all the visitors who come.
